School of Forestry

EMPOWER YOUR CAREER IN ENVIRONMENTAL STEWARDSHIP

Whether you are already employed or a non-traditional student, we designed our online program with you in mind. Join our online Master of Forestry in Forest and Natural Resource Management degree program and become a leader in managing and conserving our precious wildland resources.

PROGRAM HIGHLIGHTS

- Opportunities for collaboration with leading forestry experts
- Personalized online support from advisors, program staff, and the School of Forestry student support team
- Continue to work with our flexible schedule of online classes
- Comprehensive curriculum covering forest ecosystem science, management practices and human and social interactions

According to the US Bureau of Labor Statistics, the employment of conservation scientists and foresters is projected to grow faster than the average for all occupations from 2019 to 2029, partly due to the increasing need for wildfire prevention and suppression services and the need to solve pressing environmental problems.

CAREER OPPORTUNITIES INCLUDE:

- GIS technician
- Recreation manager
- Land planner
- Environmental policy analyst
- Partnership coordinator
