

# MASTER OF SCIENCE IN FORESTRY

**NAU**  
NORTHERN  
ARIZONA  
UNIVERSITY

School of Forestry

## WHERE RESEARCH MEETS IMPACT

Our Master of Science in Forestry (MSF) program is your gateway to original scientific research in forest ecosystems and natural resources. We emphasize hands-on training covering research methods, statistics, silviculture, wildlife management, forest ecology, and more. The program culminates in a final thesis, showcasing your expertise in research, quantitative analysis, and scientific interpretation.

### PROGRAM HIGHLIGHTS

- Gain insights and knowledge from our esteemed, world-class faculty recognized for their research contributions.
- Study in the world's largest contiguous ponderosa pine forest.
- Access research opportunities in diverse ecosystems throughout the western US.
- Benefit from established connections with local, state, Tribal, and federal agencies, providing a wealth of real-world experience.

### SIX CLIMATE ZONES

Within hours of campus you can hike through high-elevation forests, follow riparian streams, and explore the Sonoran Desert.

### CAREER OPPORTUNITIES

This rigorous program equips you with the skills and experience to excel in a doctoral program or professional forestry careers, including:

- Forester
- Wildlife specialist
- GIS specialist
- Forest health specialist
